

THE FOIL CLUB

As far as color goes, the consensus is unanimous, Balayage is the hot hair trend this season! With hand-painted, soft babylights taking over the hair scene, soft color, "bronde" is the frontrunner - *not blonde, not brown, but the perfect combination of both!* Says Alicia, stylist and owner of Educe Salon.

Alicia has three simple steps to a look in five minutes or less:

1. *Mascara! - All day everyday. Opens your eyes, and draws people in!*
2. *Lipstick! - Whatever shade you like, this wakes up your skin tone gives some life to your look.*
3. *Eyebrows! - Not a drawn on heavy look you might be thinking of, especially for a woman who never wears makeup! Eyebrows are so important to a woman's face and look. Just a great eyebrow pencil or eyeshadow applied with an angle brush will do. Have a professional show you the right shade and technique using light feathery strokes to avoid drawing them on.*

Right now at Educe Salon we can't keep the new "Wonder Worker" by Shu Uemura on our shelves. It's a foundation spray that tames frizz, hydrates, smooths, and provides humidity protection, which is a must in Florida. It truly is a wonder worker! - Alicia, Educe Salon

WHAT'S HOT FOR FALL

Advice from Orlando's Leading Beauty Specialists
By Diane Zilio

Nude lipstick! Switching from summer to fall can be as easy as changing your lipstick. Nude shades are going to be hotter than ever this fall, so be sure to find the right shade for your skin, there are many to choose from! - Alicia, Glam Dry •
